

In this uplifting and practical book, Pope Francis explains why we must—and how we can—make the world safer, fairer, and healthier for all people now.

The argument of the book is that a great set back or crisis such as covid-19 provides an opportunity to stop and reflect on whether we wish to proceed in the future as we have in the past. The book offers a critique and a vision. The issues it raises are crucial for our times.

Let Us Dream has been described as an epiphany, a call to arms. It is Pope Francis at his most personal, profound and passionate. With this book and with open hearts, we can change the world.
